

Dhanush G

Data Analyst

dhanush.pratap@latentview.com

PROFILE SUMMARY

A Data enthusiast with hands-on experience in creating dynamic visualizations and dashboards using Tableau, Apache Superset, Looker Studio, PowerBI and Qlik Sense. Skilled in data analysis, SQL, Python (Pandas, NumPy) and cross-functional collaboration. Passionate about continuously expanding knowledge in data analytics and emerging technologies.

SKILLSET

- **Visualization tools** : Tableau, Apache Superset, Looker Studio, PowerBI, QlikSense
- **Database** : SQL (MySQL, PostgreSQL)
- **Programming Skills** : Python
- **Libraries** : Pandas, NumPy, Matplotlib, Seaborn, Plotly (visualization)
- **Other Skills** : Tableau Prep, Excel, DBT, Data Preparation, Data Analytics, Requirement Gathering

PROFESSIONAL EXPERIENCE:

- ANALYST
- (August 2024 – PRESENT)
- I underwent training in technical fields like SQL, Tableau, PowerBI, Excel, Python, AWS, Databricks and Python. I also learnt about Statistics and Market Research and completed training paths for Qlik Sense and DBT.

- PROJECTS:
- Project Name: Pharmacy Analytics**
- Client Name: Blue Shield of California**
- Designed and developed interactive Tableau dashboards for the Pharmacy Analytics team, leveraging complex SQL queries for data extraction, transformation, and aggregation.
 - Translated SAS-based process flows into optimized SQL logic and Tableau Prep workflows, enabling scalable and efficient data pipeline development.
 - Consolidated multiple legacy reports into unified dashboards by understanding underlying data structures, tables, and relationships, and applying joins and transformations to create a single source of truth.
 - Delivered insights into drug-related claims while improving data quality monitoring and validation.
 - Enabled analytics owners, business teams, and vendors to track pharmacy claims data and additionally help them track changes that has happened due to the pharmacy agent collaborations.
 - Automated multiple semi-manual reporting processes by developing centralized dashboards, reducing turnaround time from weeks to near-time and significantly saving analyst effort.
 - Improved data accuracy and record maintenance for downstream business teams and external vendors

- OPS 360
- Created and designed dashboard wireframes (templates), enabling consistent design across multiple dashboards. Designed, optimized, and integrated key KPIs into dashboards for Financials, RMG, and Executive Summary reporting in Apache Superset and Looker Studio.
 - Developed and maintained dashboards in Looker Studio and Apache Superset supporting data transformation and reporting processes.
 - Conducted data transformations and quality assurance testing, identifying and resolving data discrepancies, formula errors, and reporting issues to ensure accuracy and reliability.

Training & Certifications:

- **Salesforce Certified Tableau Desktop Foundations**
- **Databricks Certified Data Engineering Associate**
- Coursera - Data Visualization and Communication with Tableau by Duke University
- SQL Courses in Khan Academy, Datacamp and edX Stanford

EDUCATION:

- St. Joseph’s College of Engineering, Chennai
- (2019 – 2023)
- B.Tech Information Technology (CGPA: 8.53)
